August 30, 2013

Dear Valued Customer,

Effective September 30, 2013, Centerchem, Inc. will no longer distribute the DSM NP Branch Pentapharm (Basel, Switzerland) range of diagnostic products you have historically purchased from Centerchem, Inc. The reason for this change is that a new distribution agreement has been established between DSM NP Branch Pentapharm (Basel, Switzerland) and Enzyme Research Laboratories.

There will be no change in the purchase order process through the close of business on Friday, September 27, 2013 regardless of your requested shipping date. Orders placed after the close of business on September 27, 2013 should be placed directly with Enzyme Research Laboratories.

This change affects distribution *only*. The manufacturing processes in place at DSM NP Branch Pentapharm are unchanged. The documentation that accompanies your shipments (COAs, MSDS', COOs, etc.) will also be the same.

The part numbers of the products you order will be changed to conform to Enzyme Research Laboratories inventory control system starting with the first order you place with Enzyme Research Laboratories. You will be contacted by Enzyme Research Laboratories with details.

Please feel free to contact Centerchem or Enzyme Research Laboratories with any questions or concerns you may have.

Thank you in advance for your patience during this transition period. We are confident it will be a smooth and seamless process.
